

MILTON KEEPS HIGHWAY 26, IS DECISION

MELLON WILL ASK VETO OF NEW TAX BILL, IS BELIEF MEASURE UNSATISFACTORY TO TREASURY SECRETARY. REPORT PREPARED Congress Hopes to Send Bill to President by End of This Week.

(BY ASSOCIATED PRESS)
Washington — Strong indications were given at the treasury today that Secretary Mellon will recommend a veto of the tax bill by the president when the measure is submitted to the treasury for consideration and review.

High officials declared the bill to be "very unsatisfactory" to Mr. Mellon and the statement was made that he viewed it as "most unfortunate piece of legislation."

He believes all of the provisions for reform of the tax system have been omitted and finds no justification for inclusion of such provisions as increased estate tax rates.

The bill, facing a welcome from almost every quarter, was ready today for its final legislative action. The report on adjustment of differences between the senate and house, unanimously adopted yesterday by the conferees representing the two chambers, went through the process of formal drafting today and Chairman Smoot of the senate finance committee expected to present it to the senate without delay. It was considered likely, however, that the report would be taken up before tomorrow.

Early action in the senate is expected to make agreement by the house Saturday, after which the bill will be sent to the president.

Hurts Credit, Charge.
The secretary also feels that the sections making income tax returns available to certain committees of congress and opening to the public the proceedings of the board of tax review will have harmful effects on business, will tend to injure credit and divulge trade secrets to competitors.

The estate tax rates, as now carried by the bill, are expected to result in a reduction of revenue instead of an increase. They base this belief on indications that large fortunes will be lost by the government in advance of death and the government therefore will obtain little, if any, tax on that part of the estate remaining intact.

Whole New Program.
Because of the deficit the treasury forces under the measure, the secretary takes the position that the reduced income would require an entirely new fiscal program for the treasury. New funding arrangements for the public debt would be required in his opinion, as well as increased issues of securities to take care of current requirements when receipts begin to come in under the provisions of the bill.

11 Guilty of Conspiracy in Liquor
(BY ASSOCIATED PRESS)
Mobile, Ala. — The jury in the case of 14 defendants charged with conspiracy to violate the national prohibition act, returned a verdict at 10:14 o'clock of guilty against eleven of the defendants in the federal district court, and were acquitted of a total of 45 were acquitted.

ENGLISHMAN HELD AS BROADWAY STRANGLER RESPONSIBLE FOR CHORUS GIRL MURDERS

Above (left to right): "Dot" King, Mrs. Lillian Behan, Louise Lawson, Center: Harry Behan, allas Lasser, allas Jackson, Belovs Mrs. Howard Johnson, covering her face as photographers attempt to snap her.

New York — In Harry Lasser, alias Behan, Roth, Drent, and Phillips, young Englishman with a wild face and the Broadway police believe they may have the man who holds the secret of the tragic deaths of "Dot" King and Louise Lawson, and of perhaps brutal robbery attacks on many other women in New York City in recent months.

Lasser is being held by police, charged with having committed Mrs. Howard Johnson, wife of a prominent writer, in a suite in a hotel and robbing her of jewelry valued at \$9,000. Mrs. Johnson positively identified him as the man who attacked her, and also identified Mrs. Lillian Behan, Lasser's wife, as his accomplice.

Similarity in the cords used in strangling Dot King and Louise Lawson, buttrifles, and in binding Mrs. Johnson, is one of the strongest links of evidence with which the police are endeavoring to connect the cases.

An empty medicine bottle neglected on a bathroom shelf, caused Lasser to be traced and caught within 24 hours after his victim was found, half strangled, the familiar cord nearby.

Police believe Lasser, the man of many aliases, may be leader of a gang of jewel robbers, whose methods of putting their women victims beyond speech revert back to strangulation by cord practiced by Oriental thugs.

George A. Miller First New Bishop Named by Church
(BY ASSOCIATED PRESS)
Springfield, Mass. — George A. Miller of South America, was elected bishop of the Episcopal church here today on the fourth ballot.

Bishop-elect Miller received 570 votes, with 551 necessary for election. The Rev. Arthur Lowry of New York, second with 512 and the Rev. George T. Grose, president of the Diocese of New York, was third, with 394.

It was said that Bishop-elect Miller would probably be sent to the residence at Mexico City. He was born in Mendon, Ill., in 1858, and graduated from Leland Stanford university in 1882, having been ordained a pastor in 1886. He served as a missionary in the Philippines and on the board of foreign missions in Philadelphia. After occupying various positions, he became secretary of the South America division.

NO COURT MOVE
Civil Service Commission Will Drop Matter, Says Secretary Garey.

(BY ASSOCIATED PRESS)
Madison — The state civil service commission will not push court proceedings against Secretary of State Zimmerman as result of its finding that Zimmerman violated the civil service law in the case of A. Cobban, Secretary A. E. Garey of the service lobby declared today.

Garey also stated that the commission will not request Governor Blaine to file proceedings.

The report of the commission means that Cobban will now be permanently certified on the civil service list, making him eligible for any position outside of the state.

The civil service commission points out that the charges filed against Cobban were weighty enough to warrant removal from office.

ALLEGED ROBBER SLAIN BY OFFICER AT STANLEY, WIS.
(BY ASSOCIATED PRESS)
Chippewa Falls — Carl Edwardson, 28, Stanley, was shot and fatally wounded early today as he emerged from the Grover Pace drug store in Stanley when a police officer claimed he was attempting to rob.

Lee Frazier, a deputy policeman stationed across the street from the drug store since it had been robbed several weeks ago. A clerk and a companion were concealed inside the store and claimed they witnessed Edwardson enter from the rear. The man walked to the cash register, but was frightened by a noise and left hurriedly.

Edwardson was married and had three children. He had been out of work for a number of weeks, it was said.

ONE KILLED, TWO HURT IN AUTO CRASH
Milwaukee — George Kule is in a hospital suffering from a broken back, from which physicians say he cannot recover, and J. J. Organ, a local dealer, is suffering from a broken leg, the result of an automobile accident last night in which Reinhard Beulow was killed. The men who were riding in the machine were working on a bridge and were returning to Milwaukee when the accident occurred at a sharp turn. The machine skidded and turned over several times.

Flyers Drive Out of Arctic Storms Into Sunny Japan

(BY ASSOCIATED PRESS)
Kasumigaaura, Japan — This was a notable day for the American army aviators who are circling the globe in their flight. They drove down out of the blizzards on the north Pacific region, where storms and fogs have hampered their progress for days, into a temperate climate where they probably can make up some of the lost time.

The first landing American aviators have made in Japan, and they did two days' tasks in one. Taking off from the icy waters of Hokkaido, they flew off Yoforfu Island, in the Kuriles, at 3 a. m. The aviators swooped down over Ushiro, on the island of Hokkaido, four hours and 50 minutes later, circled there in the American flag, and then landed at the airport.

The measurements will be submitted at once to archeologists at the University of Minnesota, who will be asked to deduce whether the body buried is that of an Indian.

Two Days in One
At 12:30 p. m. they took the air again for the 350 mile hop to Kasumigaaura, where they arrived at 5:40 p. m.

Originally it had been planned that the jump from Yoforfu Island to the main island of Japan and the further hop to Kasumigaaura should occupy successive days, but yesterday Lieut. Lowell H. Smith, commanding the flight, advised American naval officers on the Ford that the aviators would try to do both today.

On the way here the Americans gave the population of Kishiro, already thrilled by the visit of the Ford, the first foreign warcraft ever to enter that fishing town's harbor, their first sight of an American airplane, and the most of them, the first view of any aircraft whatever.

PETITION TO PUT ROAD BACK OVER OLD ROUTE DENIED

FINAL ALTERATIONS AS RESULT OF HEARINGS ANNOUNCED.

VITAL CHANGES
Commission Settles Many Disputes in Score of Badger Counties.

Highway 25 north from Janesville will continue to pass through Milton village as the result of the state highway commission decision announced today from Madison.

The petition of Milton Junction residents to have the trunk line returned to its old route through that place was denied following the hearing held in Janesville May 22, at which both sides put forth their arguments in the presence of the commission members.

FINAL ALTERATIONS ON HIGHWAYS ANNOUNCED
(BY ASSOCIATED PRESS)
Madison — Final alterations in the state trunk highway system, as result of hearings held in 20 counties of the state during the past month, were announced today by the state highway commission. Several important changes in existing routes of main highways were made, heardings were conducted on petition of county boards of local delegations. A summary of the changes follows:

Rock county — The proposal to remove state trunk highway No. 26 from the laid out route through Milton to its old route by way of Milton Junction. This petition was denied.

Door county — The proposal was to change the state trunk highway from the so-called Plum Shore road to the so-called Plum Bottom road. The road from the county board asking the change was approved.

Brown county — Two proposals were considered by petitions of residents. The first was proposed to change the location of No. 66 from its present location, due west from Shirley, to its former location south to Lark and thence west. The petition was denied.

Outagamie county — Two proposals were by the county board, the first, to change the routing of No. 18, from Brillion directly west and north to Appleton, to its former route by way of Askeaton and Kaukauna to Appleton. The request was denied. The second proposal was to change No. 15 from the city of Appleton to the city of Kaukauna. (Continued on page 12)

Hotchkiss in Sharp Reply to Governor
(BY ASSOCIATED PRESS)
Madison — Many of the statements made by Governor Blaine in his letter to the state highway commission yesterday are not facts, W. O. Hotchkiss, chairman of the state highway commission, declared today. Chairman Hotchkiss stated that an answer to the letter will be made public on Friday.

"As a matter of correct public information, I propose to give the public the facts as to the removal of the erroneous and unfair imputations made by the governor's letter to the highway commission, rather than on misinformation and assumptions."

NEW GAS TREATMENT
Washington — President Coolidge took a second chloride gas treatment for his cold.

The Farmer in the White House

"I have spent more time on agricultural problems than everything else that has been before me in my brief term as President", says Mr. Coolidge in THE COUNTRY GENTLEMAN.

A silent man on most topics, the President talks with freedom about agriculture, defining his beliefs, his policies for the relief of the nation's farmers. He understands farming as no other President in recent years has understood—he is the first farm boy in 35 years to become President of the United States. Read David Lawrence's exclusive interview with Mr. Coolidge in the May 24 issue of THE COUNTRY GENTLEMAN.

Coming in Early Issues

SENATOR BORAH

Slated to be one of the most prominent figures of the Republican National Convention, Senator William E. Borah of Idaho declares that wasteful taxation is the paramount issue of the year. Of Federal, State and County expenditures alike he asserts that "Extravagance is only one short step from corruption".

Read *Taxes Must Come Down*, written by Senator Borah for THE COUNTRY GENTLEMAN.

GOVERNOR LOWDEN

There is only one way for the farmer to get his just share of the consumer's dollar—only one way to end the vicious system under which prices for food and clothing at home are made in Europe. Read *The Cooperation Cure*, written for THE COUNTRY GENTLEMAN by Former Governor Frank O. Lowden of Illinois.

SENATOR CAPPER

Laws Can't Save The Farmer is the title of an interview with Senator Arthur Capper of Kansas, leader of the Farm Bloc in the present Congress and mentioned prominently among those who may be chosen as President Coolidge's running mate on the Republican ticket. What can save the farmer, then? Senator Capper tells in THE COUNTRY GENTLEMAN.

ZANE GREY

Wild Horse Mesa, a story of the old West, in the days when bands of horses roamed the plains—a story of love and vivid adventure—has just begun in THE COUNTRY GENTLEMAN. It is Zane Grey's latest and greatest.

Then *Joseph C. Lincoln*, with a new Cape Cod story, *Rugged Water*; then A. M. Williamson, Albert Payson Terhune and others.

HERBERT QUICK

Known as one of the most thoughtful among farm leaders, Mr. Quick is writing regularly for THE COUNTRY GENTLEMAN. Read *A Conspiracy to Rob* and *A New Form of County Government*, the latter a proposal that will interest every man and woman who wants to stamp out graft and corruption.

FOR WOMEN

The only weekly woman's magazine is a part of THE COUNTRY GENTLEMAN. In it you will find the latest fashions, practical ideas for home furnishing, new needlework, tested recipes, expert articles on health, beauty and the care of children, and all those little helps that make housekeeping easy . . . All these, besides entertainment, gardening and poultry pointers.

CALL WEDNESDAY FOR HOTEL PLEDGES

Negotiations Near Completion
and Building Now Seems
Assured.

Banks of Jamesville started calling Wednesday for payment of subscription bonds for the proposed new hotel by the citizens of Jamesville. The money for these bonds was to have been in the banks by April 10, but collection was held up pending completion of negotiations between Elliott Sparling, Ashland, the builder of the hotel, and brokers who were considering purchase of the hotel. The hotel is the most of the money has been on deposit since April 10.

It is expected that the second mortgage money will be quickly collected. The decision to issue the call was reached at a meeting of the hotel advisory board of the Chamber of Commerce at the Chamber of Commerce on Wednesday night. The Chamber made an agreement at the opening of the hotel campaign to make a canvass for the sale of second mortgage bonds.

Completion of signing of the contract between Chris Schroeder & sons, Milwaukee, who have made a proposition to build the hotel, and Mr. Sparling, is to be made May 23. The Schroeder people have signed the papers and Mr. Sparling is to decide at that time whether he will accept their offer. Indications, it was brought out at Wednesday's meeting of the advisory board, are that the hotel will be built.

The firm that takes the underwriting of the first mortgage bonds must furnish a suitable bond to assure completion of the building. When the money for the second mortgage bonds has been collected and the first mortgage contract made, the matter will be placed before the advisory commission. The commission for the approval of the plan is acceptable to them it will be a done deal.

All data relative to the project is to be submitted for approval to Roger G. Cunningham, attorney for the second mortgage holders, and the Chamber of Commerce. Cunningham, in agreement with Mr. Sparling, the owner is to appoint a trustee on the second mortgage, subject to the approval of Mr. Cunningham and William H. Cunningham, attorney for Mr. Sparling.

WAS DRIVER SOBER, BIG QUESTION IN PLAYER INQUEST

(Continued from Page 1)
appeared for Mr. Randall, who was Frank Player.

The jury hearing the testimony is composed of Ed. Leary, Bradley Conrad, J. J. Morris, W. J. Morris, David J. Drummond and Roy Scott, all of Jamesville. The jury had previously viewed the body of Mr. Player and been to the scene of the accident, four miles from Beloit, and a quarter of a mile north of the entrance to Yonk's park.

Says He Had Four Drinks
That Mr. Randall had had two drinks of whiskey and two drinks of beer, "the real stuff, not moonshine," before leaving the Chevrolet club for a ride to Beloit which culminated in the accident as the party of five men were returning home, was brought out by Chief L. J. Williams, who declared the Jamesville man had admitted that to him.

Chief Williams and the three police officers gave their opinion that Mr. Randall had been drinking and that it had affected his faculties and actions. Of these three officers, Williams was the only one who declared he was drunk. The others said he was under the influence of liquor. The officers maintained that it was shown by his actions in leaning up against and holding onto the side of the overturned automobile, his loud talking, profanity, his excitability, and being led to the police station by James Carroll, Beloit. The latter was disputed by Carroll.

Questioned by Mr. Nolan, the policeman admitted that the shock and excitement might to a degree be accountable for Mr. Randall's actions but not entirely.

Drunk, Says Schultz
Officer Schultz was adamant in his expressed opinion that Mr. Randall couldn't handle himself, couldn't drive a car and that he couldn't stand up without hanging onto the side of the car.

Officer Klevan said Randall was "in no shape to drive a car." The three officers accompanied Chief Williams when he went to the scene. Mr. Randall was taken back to Beloit by Chief Williams for further investigation, but was released after questioning.

That Randall was "rough, sore and excited and using more profanity than necessary on such an occasion with ladies present," was Officer Thompson's statement. Attorney Nolan asked the Beloit officer if the Beloit police department opened each morning with prayer. The officer positively replied in the negative.

Dr. W. G. McLean, who was called by Chief Williams to help determine whether Randall was drunk, said he would not say that he was, that he talked to him like a man and told him to act like a man and control himself. Randall, he said, was nervous but he had had a pretty severe experience. Dr. C. E. Smith, who saw him for a few minutes at the hospital, said Randall was very excited and nervous.

"I wouldn't say he was drunk," said Dr. Smith.
"Would you say he wasn't?" questioned the district attorney.
"No, I would not," the doctor replied. "If I had met him on the street and hadn't known that he had gone through this, I would have said he had had a drink or two too much."

Messrs. Carroll, Hyde, Archer, Roach and Cunningham testified that Mr. Randall was sober, although he had been drinking, could handle himself and didn't have to lean against the car for support. They attributed his actions to the effect the accident had upon him.

How Accident Happened
How the accident happened was developed through the testimony of Mr. Hyde and Archer, and Miss Lien, all three witnesses to the accident. Mr. Hyde and Mr. Archer were in a car driven by the former toward the left, which was the machine that Mr. Randall was afraid he would hit.

Testimony of these men was that the Buick car was coming north at a moderate rate of speed until it came up in back of a Ford coupe when it picked up as it swerved over to pass the other machine. The rear of the car, Mr. Hyde said, skidded to the left and another turn brought it over to the right and then back to the left when it turned off the road and over towards the interurban tracks. He was when he first saw the car. He decided that it was driven by somebody who was drunk and got out of the road, thereby avoiding a possible collision. The car was bottomed up when Hyde and Archer got out to assist the five men out of the

OBITUARY

Funeral of S. Clark Burdham, James A. Father, secretary of Oak Hill Cemetery association, received word Thursday that his remains, S. Clark Burdham, who died several weeks ago at his home in Long Beach, Cal., will be brought to this city for burial at 2:30 Sunday at Oak Hill cemetery. Odd Fellows will conduct the services. WILL ASSIGN CAMPING PERIODS TO BOYS

Definite camping periods for the summer will probably be assigned to the boys of the city, according to the board of directors of the Y. M. C. A. Thursday night, according to A. Bergman, committee secretary, who has the work in charge. According to present indications, he says, both are likely to be crowded and it is decided that dates be set as far ahead as possible. S. S. Solie and B. F. Bueks are expected to represent the Rotary club at the meeting. The business session will be followed with games and entertainment.

NUMBER OF MEASLES CASES INCREASES

Between 40 and 50 children in Jamesville are ill with measles it was reported Thursday by Dr. F. E. Welch, city health officer. Dr. Welch and Miss Grace Amerpall, school nurse, placed 21 homes for measles on Tuesday, six on Wednesday and three Thursday morning. Most of the cases are in the second ward but a few have developed on the west side of the river.

NEW SCHOOL BOARD GROUPS NAMED

Six Committee Appointments
Announced by Mrs. Holmes,
New President.

Committees of the board of education have been appointed by Mrs. Alice Holmes, new president. Playground work during the coming summer will be carried on under the direction of a committee, with Commissioner Peter Hannamund as chairman, with Mrs. Helen Sutherland and W. J. Hemming as the other members. Sept. P. G. Holt will serve as advisor.

The work probably will be carried on in a manner similar to last year, according to Mrs. Holmes, with most of the supervision coming through the superintendent's office in the same manner as regular school work. Several applications have been received from those wishing places at grounds and beaches.

Other committees were appointed as follows:
Buildings and grounds—Commissioners Jesse Earle, chairman, Peter Hannamund, Rex Jacobs, George Croft.
Finance, auditing and insurance—Commissioners E. C. Grant, chairman, E. J. Hannamund, Jesse Earle, New high school and grounds—Commissioners Mrs. Sutherland, chairman, Grant, Croft.
Purchasing, supplies and equipment—Commissioners Jacobs, chairman; Grant, Hemming, Mrs. Sutherland.
Teachers—Commissioners Hannamund, chairman, Jacobs, Hannamund.

Shannon Address Feature of "Y" Annual Meeting

Interest at the Y. M. C. A. annual meeting to be held at the Congregational church Sunday night will center on the address of Dr. Frederick Shannon, pastor of the Central church, Chicago, and well known through his sermons broadcast from radio station KYY there, and in the election of new directors. The program, announced Thursday by J. A. Steiner, general secretary, is as follows:

Organ Prelude—Mrs. W. E. Duthie.
Hymn—The Son of God Goes Forth to War.

Scripture readings—Rev. F. E. Case, Methodist church.
Y. M. C. A. quartet.
"Remember New Thy Creator," Prayer—Rev. Robert MacMillan, Baptist church.

Y. M. C. A. quartet, "Still with Thee." Election of directors.
Hymn—"Crown Him Lord of All." Address—Dr. Frederick Shannon, Chicago.

Hymn—"Awake, My Soul." Benediction—Rev. F. J. Scribner, Congregational church.

Organ postlude—Mrs. W. E. Duthie.

The meeting will take the form of a union church service, with the usual annual business, including the election of directors. In addition, most of the churches in the city are uniting in the service, and will hold no evening services in their own churches.

Gym Class Honors Retiring Director

The Y. W. Wednesday morning gym class enjoyed an outing Wednesday, when members went to Mrs. Louis Ehringer's cottage on Rock river, for a basket dinner. Miss Helen West, physical director, whose resignation was tendered to the board of directors Monday night, was presented with a bathing suit and cap, and a bunch of tulips, as a token of appreciation. Those present were: Misses E. J. Bamrow, Louis Ehringer, Edmund Ehringer, Errol Winters, Charles Lange, Harry DeJenn, and Miss Alice MacGregor.

Mrs. F. W. Van Kirk has been selected to fill the remaining vacancy on the Y. W. board of directors.

Miss Marion Hamlen, general secretary, is expected home Thursday night. Miss Hamlen, a national convention in New York. Miss Hamlen went to Greene, N. Y., for two weeks' vacation visit with relatives. Senior high school Girl Reserve officers of the past year and the coming year will go to Lake Geneva Friday night for a week end council training course.

Veteran Claims at Madison Bureau

Five years ago the veterans of the World war were being discharged from the service throughout the country at the various camps. Many of them have filed claims for disabilities due to or incident to their service, but it is believed that there are thousands throughout the United States who are still unacquainted with the privileges provided by a grateful government as expressed in the War Risk Insurance Act and other legislation affecting veterans of the World war.

One of the provisions of the War Risk Insurance Act is that claims for disabilities arising while in the service must be filed with the United States Veterans' Bureau within five years after discharge from the service and any veteran believing that he has a disability incurred while in the service should get in touch with the bureau at once.

The Veterans' Bureau has in Madison, Wisconsin, a completely equipped office and adequate personnel to take care of phases of veterans' claims, and any service man desiring information on insurance, compensation, medical care, etc., should apply immediately by letter or personally call at this office.

Banquet Speaker Flays Hypocrisy and High Living

One hundred and fifty men and women attended the annual banquet of the Men's Brotherhood, Wednesday night, at St. Michael's church with Charles E. Moore, president in charge.

The speaker of the evening was Dr. John W. Walters, First Methodist church, Madison, who gave an eloquent address on "The God of Presence." Dr. Walters denounced the practicing of hypocrisy and living beyond one's means. He said that there is a great tendency now-a-days for people to assume too much in all phases of their lives even in the religious attitude. In this religious attitude, he said, people are apt to assume a "holier than thou" bearing toward their neighbors. The speaker pleaded for a reversion to the mode of simple living which he said will insure for high morality and better standards of life.

Vocal solos were given by Frank K. Doune and Miss Pauline Case and a quartet composed of Misses James Lowell Thorman, Stewart Richards, C. J. Rose and George Parla, gave two selections. Roy

Townsend directed an orchestra which played the opening and closing numbers on the program. The brotherhood will continue a practice begun last year of having picnics during the summer months at the homes of the farmer members.

On Buying a Poppy.
 There will be poppies for sale on the streets one
 day next week. They will be more than a mere
 flower—not so common a flower in America as in
 Europe and especially in that part of the eastern
 continent along the shores of the North Sea, in
 northern and eastern France and in Belgium.
 These fields of nodding flowers have become an
 emblem of sacrifice.

They will be sold, because in America, along
 with every other nation of Europe, there are
 children whose fathers sleep over there where
 poppies bloom and the serried ranks of sentinels
 are the crosses and monuments to the dead. Amer-
 ica is the only nation except Great Britain
 where these orphaned children have not been
 aided by funds from outside sources. America
 has not only cared for her own but has raised
 many millions for the war orphans of countries
 abroad. But there is constant need for more
 aid and more assistance in that direction. Under
 the American Legion direction there has been
 organized a child welfare department, to help
 the children of the veterans who made sacrifices
 of life and health. It is for assistance to that
 fund that the poppies will be sold next week. It
 will not be much—the purchase of a poppy, the
 wearing of a flower in the buttonhole on that
 day. But somewhere it will mean a lot to a child
 who is, in a greater measure than any other, the
 ward of the nation.
 That is why it might be something more than
 accident that a flower is purchased. It might be
 better that we made up our minds to buy one
 anyway and to hunt the seller rather than that
 we be hunted.

The American Airplane in Japan.

More than the mere achievement of landing an
 airplane on the Japan Islands has been accom-
 plished by American flyers. They have conquered
 the Pacific and demonstrated that the greater
 danger in the feat of getting down the Alutian
 Islands to the hop-off to the bordering chain along
 the Okhotsk sea was not in the flight across the
 upper arm of the Pacific ocean but in the moun-
 tains along the coast of Alaska itself. There is
 where most of the trouble was encountered and
 is likely hereafter to be met on account of the
 storms and irregularity of the weather. That an
 American airplane should be the first to cross the
 Pacific is not to be wondered at and that it land-
 ed in Japan at a time when the Japanese are be-
 ing stirred up by the jingoism of that nation for
 political purposes may have a good effect in
 changing some of the viewpoints of the Japanese
 who are forgetful of the things America has con-
 tributed to Japan's greatness. It will, by the ac-
 companying ceremonies of welcome, be some-
 thing of an offset to the action of our ambas-
 sador, who has resigned. Mr. Woods was much
 disturbed over the exclusion bill and openly criti-
 cized congress for its action. That was not only
 a breach of diplomatic etiquette, but a violation
 of the laws under which ambassadors act. To an
 ambassador, his nation must always be right, or
 if he thinks it is wrong, he has to retreat in sil-
 ence.

Once upon a time we objected to taxation with-
 out representation, now we would prefer to have
 taxation without so much representation.

One Step at Least Taken.

By the passage of the Smith resolution, direct-
 ing the interstate commerce commission to ad-
 just freight rates on farm products, the United
 States senate has recognized the basic character
 of the farming industry. In his annual message,
 the president said that the farmer "must be as-
 sisted by the reorganization of the freight rate
 structure which could reduce charges on his
 production." And then the president added that
 "competent authorities agree that the entire re-
 organization of the freight rate structure is neces-
 sary. This should be ordered at once by con-
 gress."

That was back in December. This is May. Con-
 gress has only just passed this resolution. It is
 delayed far beyond the necessities of business.
 Somehow the congress has a way of delaying
 those things which are admitted to be beneficial
 and wastes time galore in inconsequential things
 which irritate the country. The senate resolution
 recognizes the need for regional rates for differ-
 entials, and the need for correction in the existing
 discriminations between sections.

The farmer gets no relief from the tax bill,
 unless he pays an income tax and then only when
 it is of some size. He is presented with a tax
 bill which makes no relief for business and
 which will add nothing to the industrial markets
 and demand for products. The redistribution of
 rates, not necessarily meaning a decrease in rail-
 road earnings, but a readjustment, will benefit
 the farmer. It should have been started months
 ago as President Coolidge advised.

A democratic leader, we refer to the Honorable
 Cordell Hull, says the presidential primary vote
 in each state carried by Coolidge is so small that
 it cannot be taken as an indication of the result
 in the fall. By the same token the democratic
 vote in every state where there has been a re-
 publican and democratic primary has shown a

Practical Uses of Weather Reports

By FREDERIC J. HASKIN.

Washington.—It costs a lot of money to run
 the government but the public is learning more
 and more how to get its money's worth out of
 the product of the government departments. To
 the public a small fraction of the cost of govern-
 ment is expended upon constructive work, by far
 the greater portion of appropriations going for
 war or expenditures connected with war, such as
 pensions and the interest on war loans. But many
 millions a year are spent in work of value in
 time of peace and the government is ever ready
 to assist the public to take advantage of its
 output.

One product of the government which is gain-
 ing increasing use in the commercial world is the
 weather forecast. Everyone is familiar with the
 forecasts which appear in all news-
 papers forecasting the weather for the following
 day. These forecasts, by the way, now have
 reached a mark of more than eighty per cent
 accuracy. In earlier days of meteorology, the
 weather man's predictions used to be laughed at,
 but in nearly nine cases out of ten nowadays he
 is right. The brief daily notices represent by no
 means the full product of the United States
 Weather Bureau. It makes many other calcu-
 lations on weather subjects which are available to
 anyone upon application.

When one speaks of weather in most parts of
 the United States, the idea of rain is probably the
 first mental reaction. To show how this idea
 has been commercialized one may read the expe-
 rience of a large umbrella dealer. He had been
 in the habit of ordering large consignments of
 umbrellas from the manufacturers in the autumn
 because he was under the general impression that
 more rain was noticeable at that season.

Then it occurred to him to approach the mat-
 ter scientifically and he got in touch with the
 weather bureau. He was furnished with charts
 showing the distribution of precipitation in his
 part of the country. After studying these, he
 worked out a chart which proved an efficient
 guide to the amount of rain which would fall in
 the various months of the year. On the basis of
 this chart he placed orders for umbrellas to be
 delivered month by month in quantities propor-
 tionate to the expected rainfall. The system
 worked perfectly. He was never overstocked and
 never sold entirely out. He kept less money tied
 up and yet was always able to serve his public.

A western sheep raiser furnishes another in-
 teresting example. He had suffered losses by pur-
 chasing young lambs and having them killed by
 adverse weather conditions. After studying
 weather charts extending over long periods, he
 was able to make a calculation showing the ear-
 liest date in the spring at which it would be safe
 to buy lambs. There was only about a week's
 difference in his time of purchase under the
 new system but it turned his losses into profits.

Architects and builders, especially in regions
 where snow falls, are also much concerned with
 weather charts as a guide to the construction of
 roofs. Snow is very heavy. The whole nation
 remembers how the roof of the Knickerbocker
 Theater in Washington collapsed two years ago
 after an unusually heavy snowstorm, killing scores
 of people. By consulting the weather charts the
 architect can determine what stresses the roof he
 is planning will be subjected to. He then plans
 to take care of the maximum load, leaving in ad-
 dition a coefficient of safety.

The weight of snow resulted in a curious dis-
 pute in the west some time ago. A flock of sheep
 was purchased on the basis of so much counting
 sheep were run onto series out of doors and
 weighed. Upon delivery, the buyer found that
 the sheep were very much under weight. He had
 paid for several hundred pounds more than he
 received and put in a claim for the missing sheep.
 Investigation developed that when the sheep were
 weighed a heavy snow was falling and each sheep
 carried a coverlet of snow. The purchaser had
 bought both sheep and snow by the pound. Of
 course the snow was gone when the sheep were
 delivered.

An important lawsuit is pending in the state of
 Utah in which the weather bureau is furnishing
 material evidence. A mining company opened
 up a subterranean stream of water and as water
 is valuable in that arid section, immediately made
 use of it. A regular surface stream nearby sim-
 ultaneously diminished its flow. Irrigation pro-
 jects in the vicinity and power companies set up
 a claim that the mining company had illegally
 diverted the water from the surface stream by
 tapping its underground sources. The mining com-
 pany is seeking to show by weather reports that
 the diminution of the flow of the surface stream
 was due to a long continued spell of dry weather.
 Another interesting case arose from difference
 in weight of shipments of coke from the produc-
 tion point to the consumer. A western smelt-
 ing company filed a claim for \$11,000 against a rail-
 road because it noted losses ranging from 2000
 to 3000 pounds a carload in consignments of coke.
 A study of the situation showed that these losses
 were confined almost wholly to the shipments
 made in the months between March and October.
 During the winter season some of the shipments
 actually showed a gain.

The weather records were brought into use in
 this case and proved the only detectives finally
 capable of discovering the coke thief. That thief
 proved to be the weather. Coke is a porous ma-
 terial. Upon being withdrawn from the coking
 oven it is drenched with a heavy spray of water as
 a part of the manufacturing process. The weather
 bureau discovered that in the course of a 150-
 mile railroad journey an average of a ton in
 weight was lost from each carload through ac-
 tion of the atmosphere, as the haul was through
 a hot, arid region. These losses were confined
 to the summer months. In the winter when
 there was much rain and humidity was high, there
 was no loss and, in some cases, an actual gain in
 weight. The claim against the railroad company
 was cancelled and the coke company found
 itself substituted as defendant.

How the weather records can be used in more
 personal matters than the loss of coke weight is
 revealed in the case of a brand new limousine
 which was overturned on an open road. It was
 insured and a claim was entered on the ground
 that the machine had been overturned and wreck-
 ed by the wind in the course of a storm. The
 weather records were consulted by the insurance
 company and it was shown that the highest wind
 pressure in the state was but one-half the pres-
 sure against the side of the car that it was ad-
 mitted to have carried on its tires. Bad driving
 and not the wind, it was shown, caused the dam-
 age.

Almost innumerable cases of practical use of
 weather records are on file with the weather bu-
 reau and it is expected that increasingly frequent
 use will be made of the bureau as the commer-
 cial world learns the value of the data available.

much larger republican vote than for the demo-
 cratic candidates. We refer, as did Mr. Hull to
 Ohio, particularly. Mr. Coolidge's vote was many
 thousands larger than the democratic. Of course
 there should be an exception in those states where
 there never is any doubt, as in Alabama and
 Mississippi. They do not win elections since they
 are counted in advance and "stay put."

It's a funny thing in this world that a fish about
 six inches long can make hundreds of men drive
 automobiles several hundred miles, but that is
 what the opening of the trout season does.

Congressman Langley protested his innocence in
 congress. He is convicted. Burton K. Wheeler
 shed tears protesting his innocence. He is not
 convicted.

EXTRAS

When you're building your house take a warn-
 ing from me—
 Don't alter or change anything that you see!
 When once you've agreed on the cost of the
 place,
 Go out of the city and don't show your face
 To the mason, the plumber, the carpenter's
 crew.
 For the things they call "extras" will paralyze
 you.

Should you say: "Put a hook here to hang up
 my hat,"
 You'll find an "extra" they've charged you
 for that.
 Should by chance you remark to the boss: "Do
 you think
 The gas range should stand where you're put-
 ting the sink,"
 He will smile with a smile: "That's a very good
 change!"
 But that's twelve dollars "extra" for moving
 the range.

Should you fancy white paint where you've or-
 dered it blue,
 Right gladly they'll smear on the white stuff
 for you;
 But they're somewhere in hiding a man who
 keeps books.
 Who counts up the nails and the bolts and the
 hooks,
 And seeing white paint where the plan called
 for blue,
 He puts down an "extra" and bills it to you.

That man is a marvel. He eats not, nor sleeps,
 So strict an account of your orders he keeps.
 Should you change but the type of the hinges on
 a door,
 That goes down as an "extra" and costs so much
 more.
 So when building a house, alter nothing you see,
 And beware of these "extras" which bankrupt
 me.

HOROSCOPE

FRIDAY, MAY 23, 1924.

The Sun in helio aspect dominates this day,
 according to astrology. Late in the afternoon
 Uranus and Mercury are adverse.

It is a way that should stimulate both men
 and women to activity in obtaining positions or
 promotions.

All who seek employment earnestly should
 benefit from this position of the stars.
 The planetary government certainly augurs
 success in persons who hold high place in the
 government, making for success of popularity.

Fighting aspirations of the class that already
 holds office, subject to the best possible di-
 rection of the stars today.
 The stars in November will have sinister power,
 however and will be likely to bring severe
 disappointments to several candidates who have
 much confidence.

This day is held to be rather unlucky for
 those who travel, especially if they go on jour-
 neys that are for gain, either financial or po-
 litical.

The aspect of Mercury is a most discouraging
 one for those who desire to settle accounts or
 to look into their financial affairs.

It is well to postpone whatever has to do di-
 rectly with figures or estimates until a better
 rule of the stars.

Urgently scenes in any body where discussion
 takes place may be expected at this time, con-
 gress being especially subject to disturbing in-
 fluences.

The death of a man long prominent in govern-
 ment affairs is prognosticated.
 Warning is given to all public men that the
 stars foreshadow many sudden endings of dis-
 tinguished careers, heart affections and dis-
 play being indicated as more common than in
 the past.

Persons whose birthdate it is have the fore-
 cast of a very lucky year in which all their af-
 fairs should be satisfactory.

Children born on this day probably will be
 alert, clever and able to achieve success in what-
 ever they undertake. These subjects, how-
 ever, are sometimes very obstinate and determined
 to do what they plan in their own way.

Personal Health Service

By WILLIAM BRADY, M. D.

"CALCIUM DEFICIENCY IN THE BLOOD"
 The chemist can make a pretty ac-
 curate determination of the amount of
 calcium (lime) in a specimen of
 blood, and it has been found that
 there is a calcium deficiency in sev-
 eral conditions which have not heret-
 ofore been clearly understood. Hay
 fever, hyperaesthesia, phthiasis and
 asthma run among these conditions.
 Perhaps the fault of calcium metab-
 olism, or at least some peculiar state
 in which there is a fault of calcium
 utilization in the body, is responsible
 for the peculiar susceptibility of cer-
 tain individuals to these disease con-
 ditions.

It is generally assumed by experts
 on nutrition that many city dwellers
 today suffer from an actual calcium
 deprivation, owing to the lack of an
 adequate amount of calcium (lime)
 in the foods which go to make up the
 dietary of the average urban family.
 A more liberal use of fresh milk and
 of all kinds of cheese—foods very
 rich in calcium—would probably
 overcome the deprivation, but the re-
 fined cereals, white flour, white sugar,
 potatoes without the skins, meats,
 which constitute the main supply of
 energy in our diet, are all deficient in
 the calcium in preparation for con-
 sumption. The greens, the leafy vege-
 tables and relishes, particularly cab-
 bage and lettuce, are rich in calcium.
 It does not follow, however, be-
 cause the diet is poor in calcium one
 need add calcium, either in the form
 of food or in the form of medicine,
 in order to overcome conditions which
 are associated with a calcium de-
 ficiency in the blood. There are more
 things in metabolism than most of us
 have ever dreamed of.

Dr. Abraham R. Hollander and Dr.
 Frank J. Novak find that the admin-
 istration of calcium lactate or calcium
 chloride in such cases is a failure un-
 less something is done in addition to
 that. It does not follow, however, be-

Q. Where is the petrified forest out-
 west N. C. L.

A. The petrified forest of Arizona
 is in the eastern section of that state
 and contains 45,000 acres.

Q. What country is called the Pearl
 of the Antilles? L. E. C.

A. Cuba is often given this pictur-
 esque appellation.

Q. Why are we thirsty after eat-
 ing salt or sweet food? W. M. M.

A. The reaction of thirst comes
 from taking into the system more
 salt or sugar than is needed. The ex-
 cess salts and secretions of mucous
 membranes and the resulting dryness
 is relieved by water which will dilute
 and carry off the excess salt or sugar.

Q. What is the temperature inside
 a coal mine when the gas is ex-
 panded? J. H. A.

A. The average temperature when
 the gas is expanded in a gasoline mo-
 tor is 2000 degrees F.

Q. What was the cause of the de-
 struction of the earthquake and fire
 at T. T.

A. Approximately two-thirds of
 the city was wrecked. Not since
 the fourteenth century had London
 been destroyed by fire in 1666 has so
 great a part of a city been wiped out.

Q. What is the cause of the mean-
 ing of the word "rainbow"? W. M. M.

A. A rainbow around either the
 moon or an artificial light is due to
 droplets of water or minute ice-crys-
 tals floating in the air and reflecting
 the light.

Q. What was the capital of the
 Alaskan? F. E. C.

A. Nome never was the capital but
 Sitka was. Juneau is the present
 capital of Alaska.

Q. Which are the 10 greatest chap-
 ters in the Bible? A. D. N.

A. The answer must be largely a
 matter of personal opinion. The fol-
 lowing are suggested: Creation—
 Genesis 1; Fall of man and hope of
 redemption—Genesis 1-2; Command-
 ments—Exodus 20; The 13rd Psalm;
 David's Psalm of Repentance—Psalm
 51; Birth of Christ—John 1; Sermon
 on the Mount—Matthew, chapters
 5-7 (counted as one); Crucifixion—
 John 19; Resurrection—John 20; Re-
 volution—Revelations 22.

FIX PROGRAM FOR ASYLUM MEETING

Visits to Jefferson, Beloit and School for Blind Are Scheduled

One hundred and twenty-five persons are expected here June 3 for the four day convention of the Association of Trustees, Superintendents and Matrons of County Asylums for the Chronic Insane of Wisconsin. A full program has been arranged for the four day sessions of the 23rd annual meeting.

Business sessions June 4, 5 and 6 will be held at the court house, and the afternoon will be taken up with programs and visits to Beloit, Jefferson, the Rock County asylum and the Wisconsin School for the Blind.

The opening session will be held at the high school auditorium Tuesday night, June 3. City Manager Henry Traxler will welcome the officials and E. E. Mann, Oshkosh, president of the association, will report on the work of the association.

The association will furnish a concert under the direction of Ralph C. Jack, a mixer will follow.

To Jefferson June 4 After a business session during Wednesday morning, June 4, the delegates will go to the Rock County asylum which they will inspect and leave there at 2 p. m. going to Jefferson for the inspection of that institution and entertainment at a chicken dinner and musical program that will follow. Dancing will be enjoyed later in the evening.

Thursday afternoon the association will be entertained at the Fairbanks-Morse plant in Beloit, enjoying a luncheon in the cafeteria and a band concert by the Fairbanks-Morse band, directed by Fred H. Lohak. A tour of the plant will conclude the visit. Enroute home the delegates will go through Acton and pass the Frances Willard school, and be guests for the evening of the Wisconsin School for the Blind.

Arriving at 8 p. m., a tour of the buildings will be made, followed by dinner and a concert by the state school orchestra and glee club. Mrs. W. A. Mann will give a reading. Election of officers and other business will close the convention Friday morning.

Two Doctors to Speak Only two speeches will be made at the convention. Dr. Thomas J. Snodgrass will speak on "Medical Service at the Rock County Asylum" and Dr. J. P. Penner on "My 35 Years' Relationship with the Rock County Asylum."

Supper and Mrs. Archie Cullen, with the assistance of the Janesville Chamber of Commerce, are handling local arrangements for the entertainment of the guests at the hotel. It is expected to be the largest attendance in the history of the organization.

Dinner Stories

A well-to-do colored man suffered a serious illness, and showed no sign of improvement under treatment by a physician of his own race. So, presently, he dismissed this doctor, and summoned a white man. The new

physician made a careful examination of the patient, and then asked: "Did that other doctor take your temperature?" The sick man shook his head doubtfully. "I dunno, sah," he declared, "I sartinly dunno. All I've missed so far is my watch."

Jimmy found much to criticize in his small sister. He felt forced to remonstrate with his mother. "Don't you want Jenny to be a good wife like you when she grows up?" he demanded. His mother nodded assent. "Then you had better get busy, ma. You make me give in to her all the time 'cause I'm bigger 'n she is. You're smaller 'n pa, but when he comes in, you bring him his slippers, and hand him the paper." Jimmy yanked his go-cart from baby Jennie.

THE ACTUAL founding of the great Olympic games is anterior to history. Iphitus, king of Elis, with Iphicrates, the great legislator of Sparta, reconstituted the games at the bidding of the oracle of Delphi in the sixth century, B. C. The regular chronicle of Olympian victors began 776 B. C. and the most important event of the games was the foot race in the stadium. At first the runners went around the circuit only once, but later they made two and even three circuits. The distance, a more complicated foot race, was added in the fourth Olympiad. Wrestling and the pentathlon, or game of five exercises, were added at the fifth games. Boxing came along at the third games. The chariot race was restored at the 25th, or 100 years after the institution of the festival. The horse race was added at the 22nd. Nowadays almost every conceivable game of competition has its place in the Olympic program.

FOLKS are beginning to get all worked up over the coming Gibbons-Carpenter fight at Michigan City on May 21. And they have a right to be. That scrap should be the battle of a couple of decades when it comes to most boxing and because of that fight it is to be held when the governor of Indiana tells him to be careful and not to do the prize fight. Light the Gibbons in the prize fight and is likely to be right up to the time for the first prize. Gibbons, Carpenter's manager, is a wee bit sure about that and he says he'll use psychology on Tom to win the engagement. Just how and what, he fails to inform the public. But, just the same, Carpenter will use his boxing generalship to beat Mr. Gibbons.

DIAMOND SPARKLES (By Associated Press) Holding first place in National league by unexpected coup, Chicago is in position to drive stakes around claim while Giants and Redmonds are tangled in four game series. Grover Alexander pitched Cubs into first place with a victory over Philadelphia Wednesday, while Ernie Ostrander, discarded Cub, hauled Red from leadership by winning debut for Brooklyn, 9-2. Giants, without manager McGraw, beat Braves 10-8 in slugfest match and three leading teams are struggling within narrow confines of half game while Brooklyn lingers games and a half away. Boston, in only third place, lost to Cleveland, 1-0, and is poised by ruin, won 13th battle in 16 starts and advanced to within half game of leading Yankees by defeating Detroit, 3-1. It was Ty Cobb's return in July. Although Philie lost at Chicago, slugger continued as Moran made second homer in two days and sixth for team in three game series with Cubs. He hit four home runs, including a Cardinal 8-5 victory over Boston. Ninth inning Brave rally, including homer by Cruise, pinch hitter, fell short. Redmonds, in their seventh inning, scoring seven runs on seven hits, in defeating Cincinnati and they, who had pitched well until that time, lost to Brooklyn. Terry, substiting for George Kelly at first for Giants, made third home run in week in his team's victory over Reds. Promising recruit, and four other pitchers, Wright, Pittsburgh's young shortstop, made four hits. Manager McGraw, forced to leave in New York, was hit by knee and Hugh Jennings will direct Giants until crippled leader returns, which physicians state, might take for some time. Jimmy Fox, Johnny Evers of White Sox improving rapidly at home in Troy, N. Y., following operation for appendicitis. (Cheney) Evers, star shortstop of White Sox, who had piece of splintered bone removed from pitching arm, improving fast and will soon be able to use arm. Fox taking on same weight as before, of enforced illness. (Glen) Wright, former Kansas City star who hit .313 in American association last season, bugged four hits for Pittsburgh, including double and triple in five times. (Tommy) Griffith, slugging outfielder of Dodgers crashed out from safety, one a triple, in five times at bat.

Milton Wins Rock River Valley H.S. Meet

DELONG IS STAR, MAKES LONG JUMP AND MOST POINTS

Jefferson-Milton Union won the second annual Rock River Valley League track meet held here Wednesday, scoring 63 points for a close margin over Stoughton, the latter piling up 46 1-2 points. Port Atkinson was third with 22, Jefferson next with 14, and Cambridge last with 6 1-2.

Coach G. H. Crandall of Milton College was starter. He was assisted in managing the meet by men from the college.

The outstanding performance of the meet was started by DeLong, who made a long jump of 20 feet 11 inches in the broad jump. The other events brought little exceptional work due to stiff, cold wind which swept the field.

DeLong was the high-scorer of the meet, collecting 26 points for Union. Keena of Stoughton was second with 10 points scored with first in both the 100 and 220 dashes. He was followed closely by Sheard of Milton who had 9 1-2 markers to his credit. Lyne of Stoughton also got 9 1-2, and Showers of Stoughton got 8.

Beloit Midwest Nine Beats Belles

(Special to the Gazette) Heavy hitting streak, Beloit Patria made it three straight over Racine's Midwest entry here Wednesday after winning 7-1. The victory was scored by Phil Phillips in the three games and six consecutive defeats for the locals. Chubb ranked Tipton in the first inning when he showed a tendency to miss the plate, Phillips breezing through the remainder of the frame with little trouble. Jimmy Baxter went through the whole game for Racine, but was handicapped with wobbly support in the pinches. The score:

Eddie Donegan of Janesville, has been elected captain of the freshman team of the University of Wisconsin. The election was held Wednesday at Madison. Donegan was chosen by a vote of 19 to 5. Seven innings were played.

Milton Playing Platteville Nine

Milton College's baseball team plays Platteville normal here Thursday in a return game. Milton won the first game against the ninth town teachers last Thursday, 7-1. There, with Milton at last finding their batting eyes, a good game should result between these two rivals. A short workout was the order Wednesday in spite of the fact that Coach Crandall was out of town. Hallett and Hutchins will probably be the starting battery.

Wills Looks Good in First Showing on London Courts

(By Associated Press) London—Miss Helen Wills, American's youthful lawn tennis champion, made a most favorable impression in her first appearance in action here. Challenging a Davis cup player, I. D. D. Spence of South Africa, in a trial match, she went out on the courts at Brompton Wednesday and surprised everybody by taking games from him in two sets. The score of the match was 6-3, 6-1.

The unannounced appearance of the American star, who represents the most threatening cloud in the otherwise serene horizon as viewed from Suzanne Lenglen's world championship pinnacle, quickly drew the spectators from the other courts, where the Surrey county championships were under way. There were murmurs of astonishment as the Californian Miss not only returned Spence's difficult service but seized every opportunity for vigorous strokes, sending the ball back with plenty of pace and spin. Another highlight of her play to the English was her anticipation of the South African's shot, enabling her to cover the court with great exertion in running.

LEAGUE NOTES

There were plenty of glass arms, Wednesday. The long grass on all the diamonds will be cut by next Tuesday.

"Red" Connell, K. C. pitcher, has the honor of making the first home run of the season. His batter, Casey the German, also yields a wicked willow.

The R. W. Motors and the Chevrolet boys are all enthused over the game. They are new members of the loop this year.

Minneapolis Man Praises Clean-up

Newspaper of the plans of the Minneapolis chapter of the Inak Walton League to clean up the banks of Rock river has spread to Minneapolis. H. I. Hudson, president of the Hudson Manufacturing company, which has a plant in Janesville, writes to Secretary W. E. Hyzer, complimenting the chapter.

"Under date of April 27, there was a small item in a Chicago paper indicating your chapter is to be active in cleaning up the river banks in and about your city limits," writes Mr. Hudson. "This is certainly a very commendable undertaking and we trust nothing will prevent your accomplishing the work. Rock river should be a beauty spot its whole length from its source to its mouth."

CONSIDER FURTHER TRAFFIC CHANGES

Officials Take Up Proposal to Abandon Mushroom Light System

Following announcement at Wednesday of a proposal to increase the number of arterial highway signs in Janesville from 14 to 65, it was learned Thursday that city officials are giving serious consideration to a plan of doing away with the mushroom traffic lights in the business district and substituting a new type of traffic regulator. The special traffic committee of the city council is conducting an investigation of the mushroom light system and the cost of maintaining it and will submit a report to the next meeting of the council at 7:30 Monday night.

The new plan being considered is to install small metal plates in the center of each side of an intersection, or four at each crossing. The plates would bear the words "Keep to the Right," and also "Stop" warnings at arterial highways. They would be attached to the pavement outside of each crosswalk, thus eliminating the sharp turns necessary at present in getting around a mushroom light. The plates on arterial highways would be round, with rectangular ones for points where it is necessary for traffic to stop. They would be only two or three inches high, sufficient to give a car a job in turning over them but not enough to do any damage.

Evanston and a number of other cities are said to have adopted this new signal system. To put the scheme into working order in Janesville would cost about \$700. The plates retail at \$7.50 each but it is believed a much lower price can be obtained by buying in quantities. The committee figures the city's needs at least 50 flat plates and 55 round ones.

Yellow Teeth Bleached White New Safe Way

Dentists' New Discovery Guaranteed to Remove Teeth Stains—Or No Cost.

To whiten dull, yellowish, stained teeth all you need now is to apply a few drops of a mild, harmless liquid to the teeth—then use a special paste—and watch stains disappear. This scientific treatment is called Bleached Combination. The mild liquid softens and loosens the hardened stains that cling to your teeth so that they can be gently brushed away with the special paste. Teeth at once begin to assume a wonderful new sparkling whiteness. Bleached Combination also keeps the teeth white by preventing the formation of future stains. Perfected by two prominent dentists who used it for four years on their own teeth and on their patients' teeth with such highly beneficial results that the Bleached Combination does not affect the enamel, as its mild ingredients are especially combined to act only on surface stains. Say goodbye to tobacco and other yellow teeth stains. Get Bleached Combination (containing both liquid and paste) today. Only small cost at all good druggists. Advertisements.

KIWANIS REVEAL VOWS OF LOYALTY

Clubmen of Three Cities Pledge Selves to Service to Man and Nation.

One hundred and fifty Kiwanians of Beloit, Elkhorn and Janesville, standing and repeating the American creed, the creed of the flag and the inter-club relations creed were the inspiring sight at the close of the banquet Wednesday night. It came as a climax to an address by Dr. Francis Burdette Short, educational director of the C. P. Denny center, who came from Fond du Lac, where he spoke at noon.

Each year the Kiwanis clubs in groups of two, three or four, select a central point being selected and the reading of telegrams by President Walter Kohler of the Janesville club, and the reading of different parts of the state was evidence that there were the same kind of gatherings in a half dozen cities in Wisconsin last night.

Decorated tables bearing pots of apple blossoms, the room festooned with American flags and the entire dining room of the Grand used for the occasion. The program was supervised by Walter Kohler and the program committee, of which Lee Bennett is chairman, had a perfect setting.

Address on Tolerance.

Dr. Short plunged his subject under the crucible of the printed program as his text, one of the sentences being "We believe that tolerance, generosity and understanding flourish and live and are not hatred, hatred and persecution, wither and die when Kiwanians men, representing the various creeds and thought intermingled."

He said that the great need of the hour of the three religions represented in America, Catholic, Protestant and the Hebrew, was to illustrate and to run the frame of harmony and bigotry and showed the difference between the broad-minded and the narrow attitude of some preachers of all creeds. He admitted he was a Methodist and took occasion to say he was ashamed of the action of the general conference in not at once voting down and attempt to commit the church to a pacifist doctrine of non-defense and refusal to go to war when the cry of stricken humanity called for the United States.

The fact that the law was paramount was emphasized.

"I want to see Al Smith run for president," he said, "and let him show once and for all, that the people of the United States would not elect a man on a platform for the repeal of the constitutional laws against liquor."

No matter what the attitude of the voter might be in some phases of the prohibition enforcement, when it came to voting Dr. Short said, he had faith that he would vote to uphold the constitution of the United States, and the 18th amendment was a part of that.

Winter Forces at Work.

Dr. Short said there were forces at work which had as an object the chances of the government from an indivisible number of united states to a sectional one made up of blocs in the interest of classes of business and certain producers and others who wanted their selfish made more important than all others.

"If you live up to the creed of a common brotherhood you are doing more than all the other forces to cement together the people of this nation and to bring about Christianity in business. Here you unite all peoples and creeds and religions in an organization for a common purpose. The great need of this world is the Christian business man."

Dr. Short was given great applause when he closed. "You may disagree with me," he said, "and I do, but I will write a letter and I'll try and answer it."

Value of Brotherhood.

The welcome address was by Stephen Bolles, in response, Charles Jahr, superintendent of the schools of Elkhorn, dwelt upon the brilliancy of the occasion and the meaning of this association of neighbors.

For Beloit, President Irvine Maurer, of Beloit college and Beloit Kiwanians responded with a witty and impressive address, in which he too emphasized the benefit of the brotherhood of men in the same communities as displayed in the meeting of the three Kiwanis clubs.

There was plenty of good music, the Elkhorn quartet, D. P. Kellner, Paul Hughes, Kenneth Goodrich and Vic Johnson, sang a variety of songs. Clayton Macell, of Elkhorn, the boy cornetist, played, and David Drummond led the chorus singing by the club.

Before the banquet Capt. Ralph C. Jack with his boys' and girls' high school band, came marching down Main street and Milwaukee street to the Grand hotel and gave the visiting guests a serenade. The boys and girls were given a great ovation.

TROUT LEAP TEN FOOT DAM.

Trout leaping a ten foot dam at Hammondsport, N. Y., was the first sign-of-spring sight that drew large crowds. The trout were leaving their winter haunts in the lake for the upper waters of Pleasant valley creek. They took their start in a pool at the bottom of the dam and attempted the hazardous leap one at a time in orderly fashion.

BIG TURNOUT URGED FOR ROCK PLAY DAY

"Not a rock in the field" is the slogan advanced by people in Rock township for the play day community celebration to be held Monday, May 26.

Extensive preparations have been made for the community celebration to be staged at Melbeth's grove, at the east end of the Rock river bridge. The Orfordville-Luther Valley band will participate in the program under the leadership of the Rev. Sanderson. This band of 20 pieces is mainly composed of bureau members, all in sympathy with the play day idea of rural recreation.

Full arrangements for a 100 percent attendance from those residing in the township have been made.

WISCONSIN MUSIC CLUBS IN REPORTS

Waukegan.—Reports from every music club in Wisconsin affiliated with the Wisconsin Federation of Music clubs, together with an address on "Music for Every Child" by Otto W. Meisner, president of the Music Service National conference, Milwaukee, furnished the principal attractions of the state convention of the music clubs here today.

HAIRLOD LAYS DAUGHTER

Los Angeles.—A daughter was born to Mildred Davis, screen actress, wife of Harold Lloyd, motion picture comedian.

ONCE A "BADMAN," INDIAN NOW JUDGE

Chief Paul Little Walker and squaw Times do change. Chief Paul Little Walker once a notoriously troublesome Blackfoot Indian, is today a judge among his own people, a leader and a Christian teacher. He and his wife have returned to the Blackfoot Reservation in Alberta after a visit of some weeks at Vancouver with Canon Stocken, who converted the Chief years ago. This was the first time these Indians had crossed the Canadian Rockies, and they were greatly thrilled by their first voyage on a steamship, the Canadian Pacific S. S. Victoria to Vancouver.

POLITICS SEEN IN BLAINE'S ROAD CRY

Moore and Others Think Governor Wants to Control Highway Department.

Sharp expressions are made by the Rock county highway department against any changes in the present road laws tending to bring the state highway commission and public roads under the authority of the governor.

The outcry of Governor Blaine is branded as being a "political move" and not founded on facts.

"Look what happened in Illinois with Governor Len Small controlling the road money," stated Commissioner Charles E. Moore. "I look upon the governor's move as an effort to gain control of the highway department so as to push personal political ambitions. At one time our state game warden department was hurriedly more than a political organization and it appears to me that Blaine would now have the highway department to serve his political interests."

"Certainly the people of Wisconsin do not want the question of public roads mixed into politics. It would be fatal to good road policy and construction."

Should Avoid Politics.

"The greatest danger to the building of good roads is the building of bad roads. Dane county spends around \$800,000 a year for gravel roads and what have they got? demanded members of the county highway committee. "State Engineer Hirst may have made mistakes, for that is human, but he is admittedly the superior of any state road official in America. Down in Illinois getting an improved road money voted for the administration. We do not want that in Wisconsin."

Progress on Route 20.

Despite the late spring season there has been a good start on road building work in Rock county. Pouring of concrete on route 20 west of Janesville was resumed Tuesday noon. Five miles of the grading for this concrete road has been completed.

The gravel road work is well underway around eight miles being near completion, including the Milton Junction-Indian Ford road, the county highway director, Mr. Hirst, the Magnolia road in Center township and the improvements on the Milton Junction and Janesville road.

VETERANS' BUREAU NURSES PAID FROM \$16.30 TO \$25.50

Applicants for the nursing service of the U. S. Veterans' Bureau must be graduate nurses of accredited hospitals and registered, says Fred C. J. Harkin, director of the Gazette Information Bureau, Washington, D. C., in response to an inquiry from a Gazette reader. Nurses making application for follow-up work are required to have at least four months' postgraduate training in public health or visiting nursing at a school of recognized standing.

The pay of nurses is given as follows: Chief nurses, \$2,250 to \$2,500; assistant chief nurses, \$2,000 to \$2,250; head nurses, \$1,800 to \$2,000; staff nurses, \$1,550 to \$1,800.

President Buchanan was the only American bachelor president, and no other information given in response to questions is: Report of the Bureau of Health indicates that country children are less addicted to communicable disease than city children; in accordance with the amount of milk furnished per cow, the Bureau of Dairy Industries says, the Jersey cow ranks highest in butter fat; places may be planted either in the late fall after the sap has gone down, or in the early spring before growth starts.

Three auto road books and one pamphlet on knitting were issued free to Gazette readers by Mr. Harkin during the week ending May 15.

DEFENDS CITY WATER CLAIM

Washington.—Francis C. Sheron, an engineer of Minneapolis, told the house rivers and harbors committee that Chicago should not be denied the right to divert 10,000 cubic feet of water a second from Lake Michigan on the ground that the lake level would be lowered, because that could be remedied by regulation works.

POLICE CHECK UP ON STOLEN ROADSTER

Receiving a report at noon Wednesday that a 1916 Chandler roadster had been stolen in Toekford, Janesville police checked up in the afternoon on a car answering the description, found near the Grand hotel. It was discovered the car was owned by an Elgin man who was able to furnish a bill of sale, so he was released.

FORT TALKS CITY MANAGEMENT RULE

City Manager Traxler, Janesville, Speaks at C. of C. Meeting.

[SPECIAL TO THE GAZETTE]

Fort Atkinson.—Declaring that what the people of any community really want is a full dollar's worth of results for each dollar spent, City Manager Henry Traxler of Janesville, addressing the meeting of the Fort Atkinson Chapter of Commerce at the public library Wednesday night, said this can be best brought about through the managerial plan.

Mr. Traxler outlined for the 40 men present at the meeting, the history and benefits accruing from the city manager form of government. As one of the progressive cities of Wisconsin, Fort Atkinson has evidenced considerable interest in the city managerial form of government.

He told his audience that the managerial commission form of government was conceived at Galveston, Tex., at the time of the flood in 1900. The new form was born at Dayton, O., when the city was deluged by water in 1913; has been adopted by 250 cities and it is predicted that the next decade will see all cities of 5,000 or more, operating under this plan.

While it would be foolish to say that this plan will reduce taxes, in most cases it has eventually brought that result, Mr. Traxler said. He said he found the sentiment of the men in Fort Atkinson quite at odds in favor of the managerial plan and could see no reason why this city could not successfully put it into effect.

WORK STARTED ON NORMAL ADDITION

Whitewater.—As the culmination of three years planning, ground was broken Thursday morning by President Frank S. Hyer, the new \$250,000 east wing of the Whitewater State Normal school, in the presence of the senior class.

The breaking of ground on the site east of the present building followed the completion of all necessary arrangements and the signing of the contracts for the various portions of the building construction. From now until September 1925 when the building will be completed, there will be much activity at the school.

Before construction starts 4,500 cubic yards of earth will be excavated by the Whitewater Bridge company.

Total cost of construction is figured at \$233,000, allowing \$17,000 for inspection and other incidentals, the state appropriation being \$250,000.

Schafer and Olson, of Appleton, Wis., have the general construction contract and others are as follows: heating and ventilating, Rosen Heating Co., Madison; electrical wiring, Domestic Utilities company, Oshkosh; plumbing and drainage, Kretschman and Sons, Janesville.
